Shubhasheesh Shukla

Full Stack Developer | Angular & Java Spring Boot | 3.5+ Years

shubhasheeshshukla126@gmail.com | +91 7376373059 | Noida, India | Immediate Joiner | linkedin.com/in/shubh7310

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of Angular experience and 1+ year of Java Spring Boot, building enterprise applications end to end. Strong in Microfrontend architecture (Module Federation), NgRx, RxJS, i18n/RTL, performance optimisation and secure frontend patterns, with hands-on backend work in REST APIs and PostgreSQL. Currently at BDO India on UAE Government tax compliance and multi-country ERP finance platforms. Works in Agile/Scrum teams with CI/CD and unit testing.

TECHNICAL SKILLS

Frontend: Angular (15–21), TypeScript, JavaScript (ES6+), RxJS, NgRx, Signals, Standalone Components, HTML5, CSS3/SCSS, Bootstrap, Kendo UI

Architecture: Microfrontends, Module Federation, Webpack 5, OnPush, Lazy Loading, JWT Auth, Route Guards, Interceptors, REST APIs

Backend & Database: Java, Spring Boot, REST API Development, SQL, PostgreSQL

Testing & DevOps: Unit Testing, Jasmine, Karma, CI/CD, GitHub Actions, Git, Agile/Scrum, Postman, Figma, ESLint, Prettier

AI Tools & Familiar With: Claude AI, GitHub Copilot; working knowledge of React.js, Node.js

PROFESSIONAL EXPERIENCE

Senior Executive (Software Engineer – Full Stack)

Jun 2025 – Present

BDO India Pvt. Ltd., Noida, India

Global Finance Platform (ERP) | *Angular 21, Module Federation, NgRx, i18n, Java, Spring Boot, PostgreSQL*

- Designed the microfrontend shell and remote structure with Webpack 5 Module Federation, delivering independently deployable micro-apps (accounts receivable, sales orders, upload logs).
- Built full Angular i18n with Arabic RTL via one shared layer, serving UAE, Saudi Arabia and GCC markets.
- Architected NgRx state (Store, Effects, Selectors) shared across micro-apps; centralised JWT auth and role-based guards in the shell, reused by every remote.
- Developed Spring Boot REST APIs (Sales Grid GET and update) backed by PostgreSQL; debugged and fixed backend and integration issues.

UAE e-Invoicing System | *Angular, VAT Compliance, REST APIs*

- Led frontend for a UAE Government VAT and e-invoicing platform; OnPush, lazy loading and trackBy cut invoice processing time by 40%.
- Built a reusable, accessible (ARIA, keyboard, focus management) component library that speeds up new feature development.
- Integrated REST endpoints with RxJS interceptors, retry logic and loading-state handling.

Senior Software Developer (Frontend)

Mar 2023 – May 2025

Incraftiv Pvt. Ltd., Noida, India

RoutSpring Travel Platform | *Angular, REST APIs, Bootstrap*

- Built the User Panel and Agent Admin Panel with complete flight, hotel and car booking flows, automating bookings and centralising payments for business travellers.
- Diagnosed and resolved critical production bugs under live traffic, improving platform stability.

V2 Kart, E-commerce Website & Admin Panel | *Angular 15, REST API, Jasmine/Karma*

- Built the e-commerce site and Admin Panel from scratch (catalogue, cart, checkout, analytics dashboard), fully responsive and mobile-first.
- Introduced Jasmine/Karma unit tests on a codebase with no prior coverage; agreed clear API contracts with backend developers.
- Led successful delivery of 5+ projects across e-commerce and travel domains.

EDUCATION

Master of Computer Applications (MCA), Chandigarh University (Online) — Jun 2025 – Present (Exp. 2027)

Bachelor of Computer Applications (BCA), Kanpur, Uttar Pradesh — 2019 – 2022
